Josiah Macleod

Sunnyslope Landscape and Custom Design

West Kelowna, BC

Josiah Macleod, the owner of Sunnyslope Landscape and Custom Design, is a true standout in the world of retaining walls and landscaping. His journey began in the early 1990s when he first started working with retaining walls, and in 1996, he founded Sunnyslope Landscapes in West Kelowna and surrounding areas of British Columbia. Over the years, Josiah has worked tirelessly to refine his craft, build his experience, and focus on creating exceptional designs that exceed client expectations. ***So it is with great pleasure we induct Josiah into the Allan Block Wall of Fame circle of those who go above and beyond development of their business using Allan Block products.***

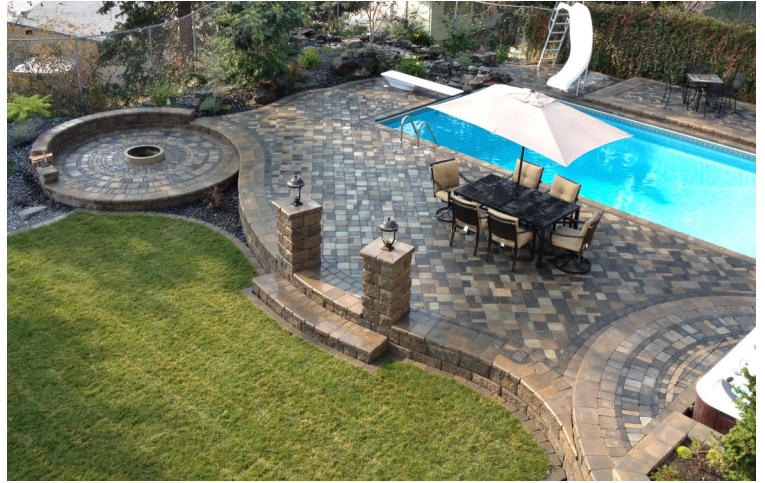

Sunnyslope Landscaping has completed a wide range of impressive projects that showcase its expertise. One of the standout projects was Avery Heights, which involved 25,000 square feet of retaining walls using geogrid, no-fines concrete, and anchors during installation. Another landmark project was the Tocher Residence, featured as a case study on Allan Block's website, highlighting

the innovative work Josiah and his crew are known for. Traditions, a 35,000-square-foot development in Kelowna, also stands as a testament to their skills, with Josiah utilizing Allan Block's Ashlar Blend for the design. These projects are just a glimpse into Josiah's impressive portfolio, which has earned him the prestigious title of Allan Block Master Wall Builder.

A key moment in Josiah's journey came when he met Cecil Fitzpatrick of Expocrete, now Belgard/Oldcastle, over 20 years ago when Cecil was transferred to the Kelowna market. Josiah was the first contractor Cecil encountered, and as Cecil shared, "It's been a wonderful experience knowing him. Josiah has become my go-to person for leads, and I even trusted him to do the landscaping for my own home. He is not just a skilled professional but also a trustworthy and kind person. Over the years, Josiah has become a great friend. He is dedicated to his family, his work, and to being one of the best in the industry. He truly deserves this recognition as an Allan Block Wall of Fame inductee."

What truly sets Josiah apart is his ability to envision and create on-site solutions that transform ordinary landscapes into extraordinary spaces. With his creativity and expertise, he walks clients through ideas that not only meet but far exceed their expectations. Josiah is a man of action, turning dreams into reality. He is one of those rare individuals who doesn't just imagine the possibilities—he makes them happen.

Josiah's dedication to the craft goes beyond his own work. He has been an invaluable resource to the industry, consistently supporting Allan Block's mission by helping with the hands-on portion of the Allan Block Contractor Certification Classes, even when those in attendance might one day become his competitors. His belief in doing things the right way and adhering to Best Practices is a cornerstone of his approach, no matter who is doing the work. This commitment to quality has earned him respect throughout the industry.

All of us at Allan Block are deeply grateful for Josiah's years of dedication, support, and unwavering commitment to our products. We wish there were more contractors like Josiah around the world who share his passion, care, and commitment to excellence in this profession. He

has not only been a trusted partner but also a shining example of excellence in his field. Josiah's passion for the industry and his commitment to quality reflect everything we stand for at Allan Block. He embodies our motto - ***Always Better, Always Allan Block.***
